

RDA Ingeniería

Montevideo

RDA Engineering works in different project stages, boosting ideas to meet its clients' needs and exceed their expectations. Services offered include conceptual design, detailed engineering, technical assistance, peer review, and staff augmentation.

RDA Engineering is dedicated to consulting in civil and structural engineering, forging long-term alliances and working as a business partner. We develop projects with commitment and responsibility, turning ideas into the best solution. The company has more than 500 success stories in 20 countries and focuses on offering the best solution for each project.

It works in 2 main areas:

Building structures

Civil structures

From its offices in Montevideo, Asunción, Buenos Aires, Florida (FL) and Austin (TX), the team of more than 45 professionals takes on each challenge with commitment and responsibility, providing solid technical knowledge and offering deliverables that meet international quality standards.
