# Success Stories

“A favorable legal framework, high democracy index and one of the best economic climates in the region provide an ideal business environment needed for a multinational company. The country has stable and long-term macroeconomic policies that helps the promotion of foreign capital investment. Uruguay’s high standards of living compared to the rest of the region, the availability of competitive and highly skilled human resources as well as customer service orientation are also key for the maintenance and growth of our business in the region.”

“From Astrazeneca point of view, the cooperation we get with Uruguay has been a key factor that has enable us to improve our supply chains, access more patients, protect our products, ensure that we achieve everything we set out to do.”

**Julian Wann**

Global Category Leader of Freight and Logistics, AstraZeneca

“Megalabs decided to develop its operations in Uruguay due to its legal certainty, competitive talent and the free zone scheme which provides us with the most convenient regulation and stability for a long-term investment. Another key element is Uruguay’s short distances: the manufacturing site is located less than a mile away from the airport and still very close to the port.”

**Gianclaudio Broggi**

CEO, Megalabs

“Uruguay is an ideal port for docking our ship. The choice of the country, the first in America to host this activity [Insight Lab-Research Camp 2024], was based on the tradition of excellence in research and the strength of the Uruguayan market, which has proven to be a business and innovation hub in the region.”
