CSI GLOBAL

ABOUT US:

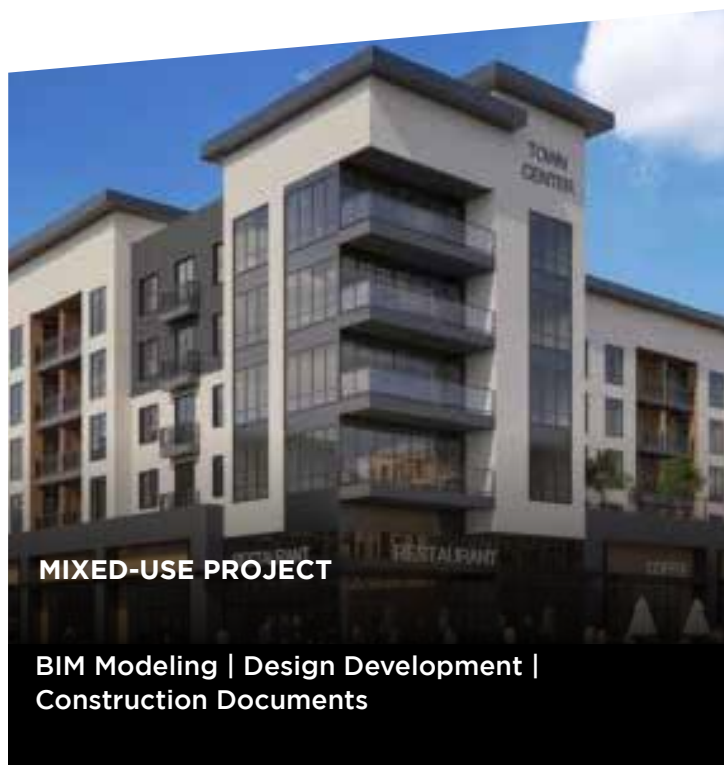

CSI Global is a trusted international partner that supports building projects from concept to construction. We specialize in delivering complete architecture and engineering solutions with the agility, quality, and responsiveness today's firms need to stay competitive.

Our value lies in a senior, multidisciplinary team — architecture, structural, civil, and MEP — ready to integrate into your workflow and help you move projects forward without adding fixed overhead. We're used to working under tight deadlines, adapting fast, and delivering with precision.

Clients choose CSI for our consistent results, rapid response, and cost-effective delivery model. Whether you're expanding, facing resource constraints, or need expert backup, we provide the support to get projects done — on time and with confidence.

- Technical Support & Coordination
- Technical Project Coordination
- Architectural Project Review
- BIM Modeling
- CAD & Drafting
- Renders and 3D Visualizations

DIM STUDIO | DIM

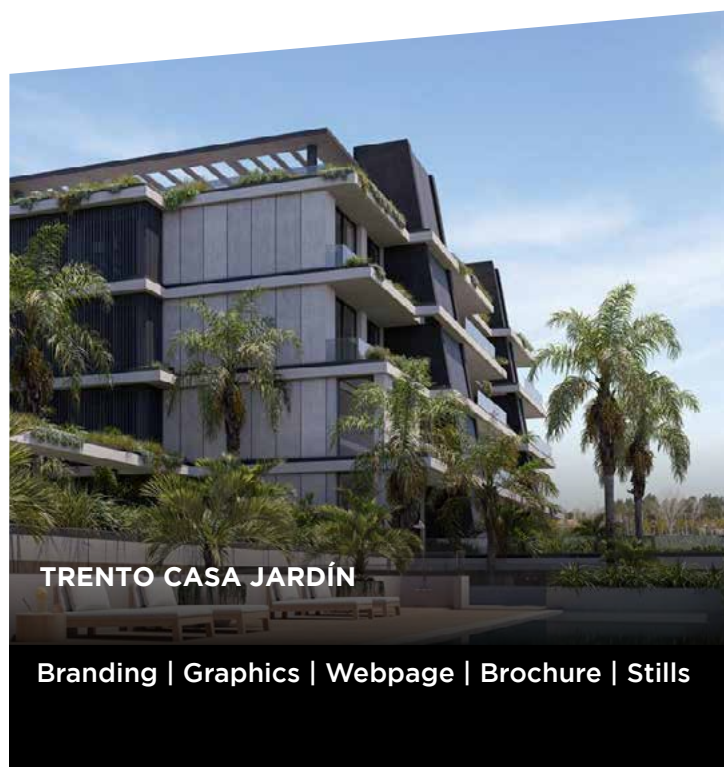

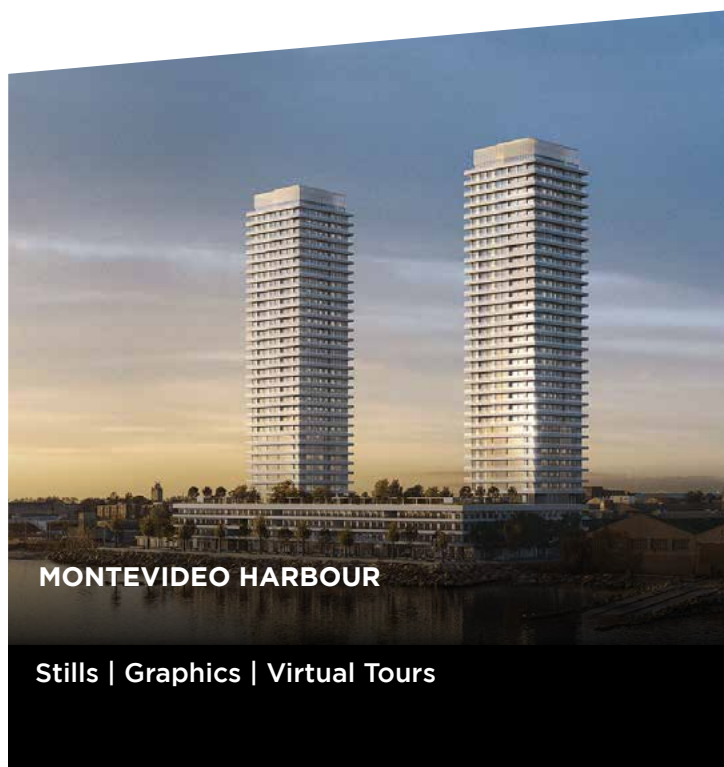

ABOUT US:

DIM is a small creative studio based in Uruguay, with extensive expertise in visual storytelling and property branding. Our team is a dynamic blend of seasoned professionals and emerging talents—architects, designers, and artists—united by a shared passion for empowering through design. Our primary goal is to highlight the uniqueness of every project by crafting content that resonates emotionally and persuasively with its target audience.

OUR SERVICES:

Empowering property developers, architects, and marketing teams with engaging visual solutions framed within a cohesive and compelling narrative.

With a strong background in architecture, photography, and CGI, we specialize in producing photorealistic images/film of unbuilt architecture, interactive solutions, and identity design for both digital and print.

MONTEVIDEO ARCHITECTURAL GROUP

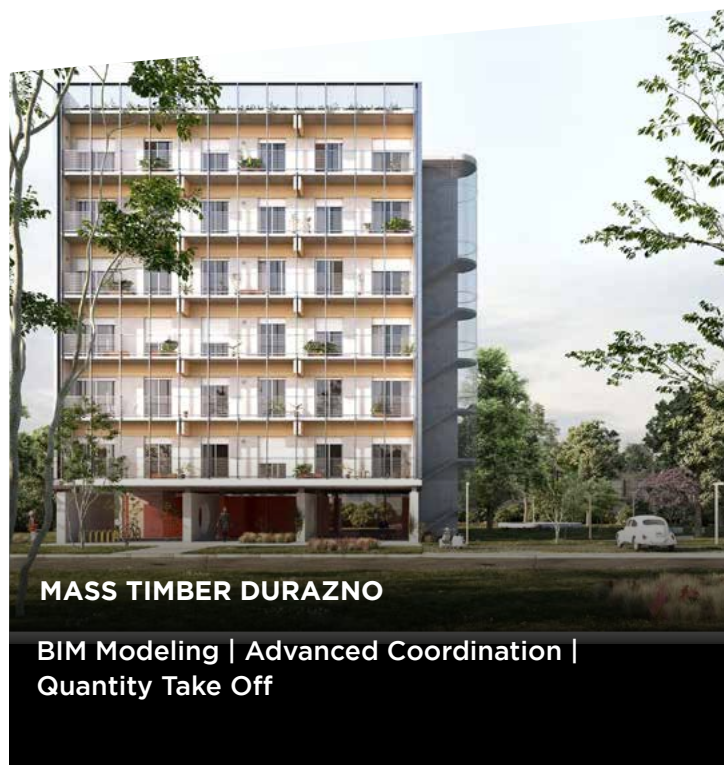

ABOUT US:

MAG is a dynamic and innovative architecture studio, specialized in high-complexity projects on a global scale. We bring strong technical expertise, advanced BIM capabilities, and a sharp focus on design and construction documentation, partnering with architecture firms, developers, and contractors.

Our flexible and collaborative team adapts seamlessly to the needs, workflows, and cultures of our clients, ensuring efficient integration and high-quality results at every stage. We thrive in multidisciplinary environments and contribute critical thinking, technical rigor, and design clarity to support and enhance our clients' project development processes.

OUR SERVICES:

- Feasibility Studies
- Schematic Design
- Design Development
- Construction Documents
- High-end Visualization
- BIM Modeling
- Parametric Design
- Advance Coordination
- Quantity Takeoff

PROYECTOS ENGINEERING

ABOUT US:

Proyectos Engineering is a multidisciplinary A/E design and project management firm with 90 professionals serving global clients. We deliver world-class projects and foster meaningful careers, specializing in infrastructure for the process industry. Our work combines advanced design technology with an ISO 9001:2015-certified Quality Management System.

In industrial architecture, we offer integrated design and project management tailored to the process industry. We design functional, efficient, and sustainable facilities like factories, warehouses, and processing plants, meeting high standards of safety, productivity, and environmental responsibility.

OUR SERVICES:

- **Integrated Engineering Design:**

Process, Mechanical, Electrical
Automation & Instrumentation, Civil,
HVAC, BIM Modeling, Architecture.

- **Integrated Project Management**

Purchasing Strategy & Management,
Contract Management, Construction
Management, Commissioning,
Shutdown.
