

## BM Latam

We help companies implement strategies that allow meaningful changes and improvements in their organization.

We help companies implement strategies that allow meaningful changes and improvements in their organization. We work with service, technology and retail companies. Our job is to provide an external perspective and thus facilitate a more critical analysis free from the restrictions that are usually accepted by those who are most involved in management. We collaborate with the executive and management team to define, think and implement the company's strategy, explore and solve operational problems, explore different alternatives for doing things and new business opportunities, generating strong alliances specific to each sector.

Areas of expertise:

- Strategic planning
- Management and operations
- Commercial development Management
- HR structure and policies
- Organizational climate
- Key talent recruiting
- Market research
- Mergers and acquisitions

We have a multilingual and multidisciplinary team of professionals with experience working in regional and global markets and sectors. Our thorough knowledge of the local market is of great help to foreign investors and companies looking to settle in Uruguay.

Staff: 1-10

Year of constitution: 2016

Languages: Spanish, English
