

## Pereira & Cía Negocios Rurales

Our firm provides a comprehensive service in land and agricultural products commercialization. Additionally, we serve as advisors mainly in the livestock, forestry, and agricultural sectors.

Since 2007, we offer a professional and committed service to landowners, farm-managers and investors regarding both purchase/sale aspects in land and agricultural products commercialization. Time has led us to develop a network of businesses throughout the whole food and agriculture industry, allowing us to enhance the efficiency and concretion of solid deals.

We grow through constant training and day to day exchanges with different characters of the agri-business supply chain, backed by the kind of know-how that only experience brings along.

This expertise enables us to be qualified consultants when studying a new investment in Uruguay. Such is the case that we have advised investors from Austria, Switzerland, Brazil, USA and, most oftenly, our neighbors from Argentina.
