## ABOUT THE STUDIO

Game developer who is interested in creating games that tell stories through gameplay. I view the experience of playing through a game as a conversation between the player and the developer, I want to explore what that means in my work.

## ABOUT THE GAME

Systemic speedrun platformer about emergency services with warm Cyberfunk-inspired visuals seen through grungy but cartoonish pixel-art. 4 playable firefighters with unique abilities. Rescue civilians from burning buildings, natural/artificial disasters. Find the fastest way to complete each mission, using tools provided: ladders, water buckets, axes to destroy objects blocking the way, and more.

## ABOUT THE STUDIO

We're Pomelo Games, an independent studio making games with heart, humor and a distinctive art-style you won't mistake for anyone else's. Since 2013 we've built 6 original IPs and gathered more than 25 million downloads across our mobile catalog. Our craft has taken us all the way to Apple Arcade, where two of our titles now live, including Outlanders 2, an Apple Arcade exclusive and a Game of the Year nominee. We build games that are approachable enough for anyone and deep enough to keep you coming back.

## ABOUT THE GAME

Welcome back to the Outlands! A new, courageous generation of outlanders is ready to redefine life on the Outlands, with new approaches to building and surviving, uncharted heights and horizons, and an ecosystem more vibrant than ever before.

## ABOUT THE STUDIO

Sarnayer is an independent video game studio founded in 2020 for the development of their first game, Dying Breed. We are inspired by retro RTS (real-time strategy) games from the 90s, which are still played around the world.

## ABOUT THE GAME

Dying Breed is a 2.5D, isometric, pixel-art, RTS PC game. It takes place in a retro-futuristic uchronic dystopia where WW2 ended in 1951 with a nuclear holocaust. Our story starts 40 years after this event when a new mineral called substance D start emerging from the center of the earth. A megalomaniac leader called Ubik wants to take control of this new mineral. Choose your side: conquer the world or fight against tyranny. The game is being developed in Unity and the demo is already available for play.
