📍 Rincón 518 | Montevideo, Uruguay

Daniela Vignolo has been the executive coordinator of the Single Window for Foreign Trade (VUCE) since 2019. A certified public accountant specializing in consulting and the implementation of government management systems, she has a solid track record in digital transformation, project management, functional analysis, and process optimization aimed at modernizing public services related to foreign trade.

She has been part of the VUCE since its creation and has actively participated in the design, development, and evolution of the platform that integrates import, export, and transit procedures. Throughout her career, she has led initiatives for continuous improvement and the implementation of technological solutions in public agencies.

She represents Uruguay in the Inter-American Network of VUCEs and has served as a speaker at national and international events on trade facilitation, single windows, and digital government.
